HYDRO TREATED BASED HIGH PERFORMANCE HYDRAULIC FLUID

This hydraulic fluid is of high performance and utilizes the latest technology with hydro treated base oil and additive technology. The incorporation of specific additive packs ensures optimal performance and extended service life. This hydraulic fluid is designed for trouble-free operation in a wide range of hydraulic applications, light gearboxes, and general lubrication purposes. It is formulated with the latest hydro-treated base oil and additive technology to prevent sludge and deposit creation at higher temperatures. With a high viscosity index, it can also perform well in high-pressure hydraulic systems.

CATEGORY

- Hydraulic Fluids

BENEFITS

- Excellent anti wear protection
- Good emulsifying and air-release properties
- Good anti-oxidation for a long service life up to 10.000 hours
- Lasts up to 3 x longer than the leading conventional hydraulic fluids
- Excellent anti-corrosion properties
- Excellent high temperature properties
- No sludge and deposit creation thanks to the absence of aromatics
