

# CHAIN-PLUS MOLY-D 22

CHAIN OILS

321800401

## CHAIN OIL WITH MOLY

This product is a chain oil that is lightweight and infused with moly lubrication, providing exceptional anti-wear properties. It is suitable for use on a wide range of chains and conveyor systems in various industries such as textiles, glass, steel, and wood, as well as in all kinds of ovens. The oil can be applied manually or through centralized lubrication systems using spraying, brushing, or dripping methods.

## CATEGORY

- Chain Lubricants

## BENEFITS

- Chemically stable
- Low volatility that reduce the evaporation residues
- Semi-dry lubrication
- Capable to resist high temperatures during a long period
- Excellent anti-wear properties
- Very low deposits formation
- Keep the slides and chains clean

| PROPERTY                              | METHOD | VALUE |
|---------------------------------------|--------|-------|
| Colour                                |        | Black |
| Viscosity @ 40 °C, mm <sup>2</sup> /s |        | 22    |
| Rust Test                             |        | Pass  |
| Density @ 20 °C, kg/dm <sup>3</sup>   |        | 0.89  |
| Flash point, °C                       |        | 175   |
| Pour point, °C                        |        | -40   |
