BIODEGRADABLE CLEANER

This highly active, all-purpose cleaner is based on alkali and has powerful cleaning properties, while also being highly biodegradable. It is ideal for cleaning surfaces, pumps, chains, pipelines, and floors, as it effectively loosens and removes dirt, grease, oils, and other residues.

CATEGORY

- Cleaners

BENEFITS

- Biodegradable and non toxic
- All-round
- Friendly for operators
- Easy to dilute
- Extremely effective even aggressive residue
- Does not chemically attack laquer
- Non flammable

PROPERTY	METHOD	VALUE
Density @ 40 °C, kg/dm ³		1.15
Flash point, °C		None
Biodegradability, %		>90
