LUBRICANTS

## INDUSTRIAL CLEANER

This product is highly effective in removing tough and stubborn residues, including oily and greasy substances, hardened carbon deposits, and dirt. What sets it apart is that it can dissolve these substances easily, and it is also water-soluble, which means that any surfaces or parts cleaned with it can be rinsed or sprayed with water afterwards. This product is suitable for cleaning engines, machines, and floors in various settings, including processing equipment, chains, workshops, and garages.
