## FOODGRADE DOUGH DEVIDER & MOULD RELEASE FLUID

This product is a specially formulated dough divider oil made from ester-based oil and unique additives that ensure a clean and trouble-free operation. When used as a release agent, this product offers exceptional performance, with a consumption rate that is typically half to two times less than conventional options like sunflower oil. This makes it a more cost-effective and efficient solution. Moreover, the Spray provides direct contact lubrication for dough dividing applications, making it an ideal alternative to mineral lubricants in regions where local or domestic regulations prohibit their use. This product is a versatile product that can be used as a dough divider oil. It offers outstanding performance, ensuring excellent release of dough in bowls, chutes, choppers, and dividers in various bakery processes.

## BENEFITS

PROPERTY	METHOD	VALUE
Colour		Yellow
Base oil		Ester
Viscosity @ 40 °C, mm <sup>2</sup> /s		46
Density @ 20 °C, kg/dm <sup>3</sup>		0.92
Flash point (min), °C	ASTM D92	>260
Pour point (min), °C	ASTM D97	6
Biodegradability	OECD 301 B	>85
Skin irritation potential	OECD 404	Non irritating
Biological renewability		>80
