## FOOD GRADE AND BIODEGRADABLE CLEANER/ DEGREASER

This spray is an eco-friendly and food-safe degreaser that leaves no residue after evaporation. It has temporary penetrating and lubricating properties and can be used as a replacement for harsh chemicals such as acetone, white spirit, toluene, and trichloroethylene. This powerful degreaser effectively removes oil, grease, tar, resin, glue residues, paint, and other contaminants. It is ideal for use in food processing equipment and other applications where a clean and safe degreaser is required.

This spray is an effective cleaning solution suitable for a variety of applications, such as bearings, gears, hinges, slides, conveyor belts, parts, chains, and more. It is a biodegradable and non-toxic degreaser that evaporates quickly, leaving no residue behind. This low-odor and non-corrosive product is an excellent replacement for harmful solvents such as acetone, white spirit, toluene, and trichloroethylene. With its ability to remove oil, grease, tar, resin, glue residues, paint, and other contaminants, this product is a versatile cleaning solution.
