

OCTANE BOOSTER

OCTANE BOOSTER OF LRP, UNLEADED AND LEADED PETROL

322600301

DYADE
LUBRICANTS

BOOSTER PERFORMER

This Octane Booster is developed based on the latest MMT technology. These strong additives are capable of increasing the octane level of LRP, unleaded or leaded petrol with 2 to 5 points. This octane booster lowers the fuel consumption and reduces and prevents pinging of the engine. It forms a protective layer on the valve seats that replaces the effect of lead. Because of this, this product provides a very effective guard against valve seats. Also the engine performance and the acceleration will increase. Note: This product does not contain lead components and is safe for use with catalytic converters and turbochargers.

Product information

“People buy this product because they want to increase the octane 2-5 points”

CATEGORY

- Car additive Octane Booster

MAIN BENEFITS

- Increases octane level 2-5 points
- Suitable for LRP, unleaded and leaded petrol
- Increases fuel economy
- Acceleration increases

AVAILABLE PACKAGING

- 300 ML

HOW TO USE?

Dyade Octane Booster is a once-for-use product. Please pour the whole bottle of 300ml into the petrol tank before filling up with new petrol. One bottle is able to treat up to 70 liters of petrol. Because of the very concentrated additive package it is not recommended to use the product in less than 30 liters of petrol as this could have an opposite effect.

PRODUCT SPECIFICATIONS OCTANE BOOSTER

TEST	UNIT	VALUE
Appearance		Clear Yellow
Density @ 15 °C	kg/l	0.830
Flash point	°C	>50
Refractive index @ 20 °C		1.448
