

VISCOSITY IMPROVER

EXTREME VISCOSITY INDEX IMPROVER

322800401

DYADE
LUBRICANTS

IMPROVE YOUR VISCOSITY INDEX

This is an ultimate, modern additive that drives enables your lubricants to perform under the most extreme conditions. This product improves the viscosity of the oil and increases the oil film at high temperatures and in case of heavy loads. In addition to modern engines, it is also very effective in older engines and can be used in all petrol, diesel, engines that experience high oil consumption, low oil pressure and low compression. Additionally, this product performs excellent under warm weather conditions, mountain/hill driving and start-stop traffic. It is compatible with all mineral and semi-synthetic and single- and multigrade oils. It does not harm catalytic converters and turbochargers.

HOW TO USE?

It is advised to use the Dyade Lubricants Viscosity Improver at every oil change. Start the engine and warm it up. Then shut the engine down and add the content of 300 ml Viscosity Improver to the oil. One can of 300 ml treats up to 5 liters of engine oil.

PRODUCT SPECIFICATIONS VISCOSITY IMPROVER

TEST	UNIT	VALUE
Appearance		Amber
Density @ 15 °C	kg/l	0.860
Kinematic viscosity @ 40 °C	mm ² /s	5890
Kinematic viscosity @ 100 °C	mm ² /s	526.0

DYADE MAINTAIN THE THINGS WE VALUE

Product information

“People buy this product because they need to improve the oil viscosity to optimize performance”

CATEGORY

Car additive Viscosity Index Improver

MAIN BENEFITS

- Improves the VI Index
- Increases high temp performance
- Increases the oil film at high temperatures

AVAILABLE PACKAGING

300 ML
