

# FRICION REDUCER

EXTREME ENGINE FRICTION REDUCER

322800601

## EXTREME FRICTION REDUCER

This product is a highly concentrated additive that extremely reduces the friction between the metal surfaces in the engine. It is seen as the ultimate engine protector for traditional and modern engines. By reducing friction and wear, it increases the lifetime of the engine and retards oil ageing. Also it reduces fuel consumption, prevents oxidation and premature thickening and stops formation of sludge and deposits. This product works extremely well in engines that have a lot of start-stop situations. It is also specifically developed for turbocharged engines. When longer distances are driven, this product shows its effect halfway the oil intervals.

## HOW TO USE?

It is advised to use the Dyade Friction Reducer at every oil change. 1 Bottle of 300ml will treat 3-6 liters of engine oil.

## Product information

"People buy this product because they want to increase engine lifetime"

### CATEGORY

Car additive Friction Reducer

### MAIN BENEFITS

- Extreme friction reduction
- Ultimate engine protection
- Increases lifetime of engine
- Increases fuel economy
- Eliminates sludge deposits
- Works extremely well in start-stop environments/city traffic

### AVAILABLE PACKAGING

300 ML

## PRODUCT SPECIFICATIONS FRICTION REDUCER

TEST	UNIT	VALUE
Appearance		Brown liquid
Density @ 20 °C	kg/l	0.878
Kinematic viscosity @ 40 °C	mm <sup>2</sup> /s	99
Kinematic viscosity @ 100 °C	mm <sup>2</sup> /s	13
Refractive index @ 20 °C		1.470
