

FOOD-PLUS CHAIN DCC 220

FOODGRADE CHAIN OILS

323200401

FOOD GRADE OIL FOR THE LUBRICATION OF DRIVE AND CONVEYOR CHAINS AND GEARBOXES

These adhesive fluids are fully synthetic and food grade, designed for lubricating drive chains, conveyor chains, gearboxes, and reduction units. They incorporate special additives that greatly prolong the intervals between relubrication. They are suitable for use in environments where incidental contact with food is possible. These fluids are also oxidatively inhibited, resulting in a durable wet film that remains stable across a broad temperature range. The product can be manually applied by brush or by using an automatic central drip feed system on drive and conveyor chains.

CATEGORY

- Chain Lubricants

BENEFITS

- Excellent penetrating properties
- Extended chain life
- Tacky
- Non-drip and no fling
- Excellent water and corrosion resistance
- Resistant against acidic materials
- Wide working temperature range

PROPERTY	METHOD	VALUE
Density kg/dm ³	ISO 3675	0.868
Pour point, °C	ASTM D97	<-12
Flash point, °C	ASTM D93	>220
Kinematic viscosity @ 40°C, cSt	ISO 3104	220
Viscosity index	ASTM D2270	120
Demulsibility	ASTM D1401	Pass
4-ball welding load, kg		160
NSF registration, HI		142966
Halal approved		Yes
Kosher approved		Yes
