

FOOD-PLUS CHAIN 212

FOODGRADE CHAIN OILS

323200801

FOOD GRADE OIL FOR THE LUBRICATION OF DRIVE AND CONVEYOR CHAINS IN LOW TEMPERATURE APPLICATIONS

Formulated with a combination of synthetic hydrocarbons, this product is designed to provide a long-wet film life over a wide temperature range by being inhibited against oxidation. Its primary purpose is to lubricate conveyor chains and bearings that operate continuously at low temperatures, reaching as low as -40°C. It is especially suited for slow-moving chains. To use on drive and conveyor chains, apply the product sparingly with a brush or oil can as needed. Alternatively, it can be applied automatically through a central drip feed system.

CATEGORY

- Chain Lubricants

BENEFITS

- Penetrates to the links and pins reducing wear and extending chain life
- Does not form hard carbon deposits
- Miscible with esters, mineral oils and other synthetic hydrocarbons
- Avoids high speed splashing and therefore staining of fabrics
- Excellent anti-wear properties
- Low volatility that reduces the evaporation residues

PROPERTY	METHOD	VALUE
Colour		0.5
Density @ 20 °C, kg/dm ³		0.82
Viscosity @ 40 °C, mm ² /s		17
Viscosity @ 40 °C, mm ² /s		2500
Viscosity index		125
TAN, mg KOH/g		<1
Flash point, °C		>220
Pour point, °C		<-60
NSF registration		151578
Kosher approved		yes
Halal approved		yes
