FOOD-PLUS CLEAN 188

FOODGRADE CLEANERS 324100101

FOOD GRADE & BIODEGRADABLE CLEANER

This cleaner degreaser is specifically designed for use in food-related industries. Its non-toxic formula is highly effective at removing grease and oil residue. It is made from a citrus oil derivative, which is biodegradable and non-caustic, making it safe to use with minimal protective equipment. This natural cleaner is a perfect choice for environmentally conscious companies. Industrial solvents are often used to dissolve tough substances like oil, grease, sludge, and polymers, but these solvents can be hazardous and damaging to equipment and personnel. This product, on the other hand, is a safe and effective solution for tough cleaning and degreasing jobs. It contains no harsh chemicals and will not harm delicate parts, painted surfaces, or leave any residue. This non-toxic and biodegradable cleaner can be used without any health concerns and safely rinsed away without polluting water sources. In addition to its convenience, it also eliminates the need to handle, store, and dispose of toxic solvents. It is especially useful for removing labels. Simply spray or rub the fluid onto the label and let it sit for a minute.

The glue will dissolve, allowing for easy removal of the label. This product can be used on a variety of surfaces including machinery, walls, wood, leather, fiberglass, stainless steel, cement, motors, door panels, road tar, floors, oxidation, carpets, and glass. To use, apply the product to the surface, let it work for a short period of time, and wipe away the dirt and grime with a cloth.

PROPERTY	METHOD	VALUE	
Density @ 20 °C, kg/dm³	ASTM D1298	0.864	
Odour		Citrus	
Appearance		Yellow	
Viscosity @ 40 °C, mm²/s	ASTM D445	2	
Pour point, °C	ASTM D445	-46	
Flash point, °C	ASTM D92	51	
NSF C1 registration		151738	
Kosher approved		Yes	
Halal approved		Yes
