FOODGRADE METALWORKING FLUIDS

324300101

LUBRICATING WHITE PARAFFIN OIL

This food grade paraffin oil is a versatile lubricant suitable for authorized industrial operations where there is a potential for food contact. Its excellent performance makes it ideal for general lubrication purposes in various applications within the food processing industry, as well as in textile and knitwear production and the food and beverage industry. The product is well-suited for environments that require frequent cleaning with water or where high cleanliness levels are necessary. Additionally, it can serve as a base oil for food grade lubricants and greases, and is effective as a dough divider oil, as well as a lubricant for cutters, knives, conveyors, rollers, and as an anti-corrosive agent for food processing machinery. This product has received NSF and InS H-1, 3-H, and HX-1 approval, and its 3-H approval meets the HACCP requirements for the lubrication of dough cutting equipment (full contact) in bakeries. These products cater to manufacturers of oils and greases, the cosmetics, textile, food and beverage industries, breweries and bottlers, as well as animal feed factories.

CATEGORY

- Metalworking Fluids

BENEFITS

- Colourless, odourless and tasteless white paraffin oil
- Good lubricating capacity
- Good adherence
- Provides a clean non staining and non-contaminating lubrication
- H-1, 3-H and HX-1 approved
- Can be used as lubricant and mould releaser in the food industry
