FOODGRADE WHITE OILS

324400101

LUBRICATING WHITE PARAFFIN OIL

This food-grade paraffin oil is ideal for general lubrication purposes and can be used in industrial operations where there may be potential food contact. It is highly versatile and can serve as a general lubricant in various applications within the food processing industry. Moreover, the product performs exceptionally well as a lubricant in the textile, knitwear, food, and beverage sectors. It is especially useful in environments that require high levels of cleanliness or where regular cleaning with water is necessary. Additionally, it is a suitable base oil for food-grade lubricants and greases, and can be used as an anti-corrosive agent for food processing machinery. These products are applicable for use by oil and grease manufacturers, the cosmetics industry, the textile industry, the food and beverage industry, breweries and bottlers, as well as animal feed factories

CATEGORY

- Industry Specific

BENEFITS

- Colourless, odourless and tasteless white paraffin oil
- Good lubricating capacity
- Good adherence
- Provides a clean non staining and non-contaminating lubrication
- Can be used as lubricant and mould releaser in the food industry
