GREASE-PLUS CAL-MO 3

324901401 GREASES

CALCIUM BASED LOW TEMPERATURE GREASE

Our grease was developed specifically for lubricating all types of bearings and mechanisms that operate at extremely low temperatures and are exposed to water. Our product is a specialty grease that is specifically developed for low-temperature applications, capable of operating down to -50°C. It is ideal for use in the automotive industry where excellent temperature resistance (both low and high), superior anticorrosive properties, and good mechanical stability are required.

| PROPERTY | METHOD | VALUE |
|-----------------------------------|--------|-----------|
| Colour | | Brown |
| Thickener | | Calcium |
| Base oil | | Mineral |
| NLGI class | | 2 |
| Base oil viscosity @ 40 °C, mm²/s | | 20 |
| Penetration 60W @ 25 °C, x 01, mm | | 265 - 295 |
| Dropping point, °C | | 140 |
| Oil separation 7d/40 °C, % | | 3 |
| Oxidation stability 100 °C, bar | | 0.25 |
| Penetration @ -40 °C, 0,1mm | | 120 |
| Flow pressure @ -35 °C, mbar | | 1100 |
| Water resistance, 3h/90 °C | | 0 |
| Temperature range, °C | | -50 - 110 |

Greases

BENEFITS

- Excellent anticorrosive properties
- High water resistance
- Low temperatures
