## WAXY FILM RUST PREVENTATIVE

Formulated as a solvent-based rust preventive, this product creates a waxy and translucent film on both ferrous and non-ferrous metals, providing excellent long-term protection against rust. It is specifically intended for indoor storage applications where prolonged protection is needed, usually ranging from 18 to 24 months. Typical applications include: Protection of packaged items during storage and shipment Long-term indoor protection Protection of parts during storage where a firm, non-tacky dry film is required
