OILY-GREASE RUST PREVENTATIVE

The product is a reliable rust inhibitor that creates a delicate layer, delivering extended safeguarding for both ferrous and non-ferrous metals. It's intended for use in scenarios where shielding is necessary for indoor storage lasting six to twelve months. Typical applications are: Protection of finished machine components prior to packaging Protection of finished machined or ground metal surfaces such as bearings, tools, valves, rollers and fasteners Protection of parts during storage where thin film thickness is required
