WAXY RUST PREVENTATIVE

The offered item is a rust inhibitor that is solvent-based and deposits a waxy coating on both ferrous and non-ferrous metals, effectively safeguarding them for an extended duration. The product's intended use is to provide protection for items during both indoor and outdoor storage as well as international shipments. Some common applications include rustproofing for vehicles, safeguarding packaged items during storage and shipment, long-term indoor protection, and protecting parts during storage that require a non-tacky, firm dry film.
