## WAXY RUST PREVENTATIVE

The offered item is a rust inhibitor that utilizes a solvent base. It forms a waxy layer on both ferrous and non-ferrous metals, which offers enduring safeguarding for the components. This product is specifically intended for use in situations where protection is necessary for both indoor and outdoor storage, as well as for international shipments and transportation. It is suitable for a range of applications, such as rustproofing vehicles, safeguarding packed items during storage and shipment, providing long-term indoor protection, and protecting parts during storage where a dry film that is firm and free from tackiness is required.
