WAXY FILM RUST PREVENTATIVE

The product provides long-term protection for both ferrous and non-ferrous metals by creating a light amber film with excellent anti-rust properties. It also possesses dewatering properties that displace water or humidity from the parts. This product is specifically formulated for applications where indoor storage requires protection for an extended period of twelve to twenty-four months. Common applications for this product include:- Safeguarding packaged items during storage and shipment- Protecting copper rolled parts- Preserving parts during storage where a firm, dry film that is free from tackiness is necessary.

CATEGORY

- Rust Preventatives

BENEFITS

- Provide anti-rust protection in parts that are wet or humid due to removal of water
- Prevents corrosion risks, by sweat contact of hands on grinding or polished parts
- Not necessary to dry the parts for anticorrosive protection
- Thin waxy film left with very good protection

PROPERTY	METHOD	VALUE
Appearance		Amber
Density @ 20 °C, kg/dm ³		0.78
Drying time, hours		2
Type of film		Waxy
Salt spray test chamber (ASTM B117)		>65
Flash point C.O.C, °C		>67
Indoor protection, months		18-24
Removal cleaners		By solvents or alkaline
