## WAXY FILM RUST PREVENTATIVE

This thixotropic product offers excellent corrosion protection and is typically diluted with solvents. Once the solvents evaporate, it forms a waxy and translucent film that provides long-term protection to ferrous and non-ferrous metals. This product is suitable for use on various types of machine parts, bearings, and storage parts. Typical applications include:- Protecting packaged items during storage and shipment- Lubricating roller bearings- Providing corrosion protection for automotive parts and tools that have been machined or ground.
