WATER SOLUBLE METALWORKING FLUIDS

325300601

ANTIFOAM FOR INDUSTRIAL AQUEOUS COOLANTS

This concentrated antifoam agent is made from silicone compounds and has excellent dispersibility properties. It can be easily added to tanks and effectively prevents the formation of foam in aqueous systems. Protect from freezing. Lifetime in indoors environment can be up to 6-12 months.

CATEGORY

Metalworking Fluids

BENEFITS

PROPERTY	METHOD	VALUE
Appearance		White liquid
Odour		Odourless
Boiling point, °C		100
Pour point, °C		0
