ANTI-FOAM FOR INDUSTRIAL AQUEOUS COOLANTS

This highly concentrated antifoam agent possesses optimal dispersibility properties, allowing it to be easily added to tanks. Its effective ability to break down and prevent foam formation makes it ideal for use in aqueous systems. Protect from freezing. Lifetime in indoors environment can be up to 6-12 months.

CATEGORY

Metalworking Fluids

BENEFITS

PROPERTY	METHOD	VALUE
Appearance		Yellowish
Odour		Odourless
Density kg/dm ³		1.01
Character		neutral
Active Content, %		100
