

# MWF-PLUS CLEAN-34

WATER SOLUBLE METALWORKING FLUIDS

325300901

## CLEANING AND DISINFECTION ADDITIVE

This product is a specially formulated blend of degreasing agents and disinfectant additives, intended for the thorough cleaning and disinfection of machinery and systems that operate using aqueous emulsions. It is highly recommended for use with all types of machine tools and centralized coolant emulsion systems, but note that concentrated use of this product may cause corrosion to aluminium components. However, when used in a 2% emulsion, it will not have a corrosive effect on aluminium.

## CATEGORY

- Metalworking Fluids

## BENEFITS

- Eliminates contamination by fungi and bacteria
- Can be added to emulsion in use
- Clean and degrease: tubes, filters and tanks
- Increases pH

PROPERTY	METHOD	VALUE
Appearance		Aqueous liquid
Density @ 40 °C, kg/dm <sup>3</sup>		1.07
pH @ 1%		12
