

MWF-PLUS WS GEN-GR 55

WATER SOLUBLE METALWORKING FLUIDS (GENERAL-GRINDING)

325301101

SYNTHETIC SOLUBLE FLUID FOR GRINDING AND SHARPENING

A green and stable solution can be formed using this water-soluble fluid. It demonstrates excellent anti-corrosive capabilities starting from a concentration of 2%. This product is suitable for grinding and sharpening ferrous metals, and can be used for both internal and external grinding applications. It does not contain any fats, which prevents the grinding wheel from dulling. Additionally, its transparent nature allows for easy monitoring of the operation

CATEGORY

- Metalworking Fluids

BENEFITS

- High anticorrosive capacity
- Excellent swarf settling properties
- High cooling properties
- Economical in use
- Does not smoke or burn
- Rejects tramp oil
- Exceptionally stable
