NEAT/PURE METALWORKING FLUIDS

325400201

MACHINING NEAT CUTTING OIL

This cutting fluid is a versatile product formulated with carefully selected ingredients to optimize performance in challenging machining conditions with varying temperatures and pressures. It offers high chemical stability, effective cooling properties, and low oil mist formation. It is ideal for use in the machining of all metals, providing excellent performance even under heavy-duty operation conditions. This product is specially formulated for high-precision machining applications such as turning, boring, threading, tapping, gear cutting, milling, and screw cutting, where a superior surface finish is necessary. It is compatible with all grades of steel, including those with challenging machinability, such as stainless and heat-resistant steels, as well as non-ferrous metals like brass, copper, bronze, and aluminum.

CATEGORY

- Metalworking Fluids

BENEFITS

- Good flushing, cooling and lubricating properties
- Improved tool life and surface finish
- Low mist and vapour formation
- Improved productivity
- Environmentally friendly
- Chlorine free

PROPERTY	METHOD	VALUE
Colour		Clear amber
Viscosity @ 40 °C, mm ² /s		29-35
Copper corrosion		None
Flash point C.O.C, °C		190
Pour point, °C		-10
