GRINDING AND SHARPENING OIL

This colourless and odourless product is specifically formulated for grinding and machining, and is free of chlorine and heavy metals. It is designed for finishing operations and sharpening of HSS, cobalt, and tungsten tools with minimal mist formation. This product is formulated for finishing applications that require a high-quality surface finish. It is ideal for grinding and sharpening HSS and hard metals, as well as steel, cast iron, brass, bronze, copper, and aluminum. Additionally, it is a low-mist formulation, making it ideal for use in sharpening and finishing operations. The product is colourless and odourless and does not contain heavy metals or chlorine.

CATEGORY

- Metalworking Fluids

BENEFITS

- Good flushing, cooling and lubricating properties
- Improved tool life and surface finish
- High performance
- No odour and colour
- Low volatility
- Improved productivity

PROPERTY	METHOD	VALUE
Colour		Colourless
Density @ 20 °C, kg/dm ³		0.82
Viscosity @ 40 °C, mm ² /s		10-12
Flash point C.O.C, °C		178
Pour point, °C		-20
