MACHINING AND SHARPENING NEAT CUTTING OIL

Formulated with solvent-refined mineral oil and carefully selected additives, this product is a transparent cutting oil with excellent cooling properties. It is designed to prevent welding of the part-tool, improve surface finish, prolong tool life, and enhance machine and fluid maintenance. Additionally, the product is free of chlorine. This product is formulated for various machining applications on materials such as aluminium, steel, cast iron, brass, bronze, and copper. It is also suitable for grinding, polishing, and sharpening saw blades.

CATEGORY

- Metalworking Fluids

BENEFITS

- Good flushing, cooling and lubricating properties
- High performance
- Improved tool life and surface finish
- Improved productivity
- Chlorine free

PROPERTY	METHOD	VALUE
Colour		Clear yellow
Viscosity @ 40 °C, mm ² /s		6
Copper corrosion		None
Flash point, °C		120
Pour point, °C		-10
