BROACHING NEAT CUTTING OIL

This cutting oil is formulated to provide excellent cooling properties and high resistance to welding between the workpiece and tool. Its balanced composition makes it suitable for use in even the most severe machining operations. However, due to its active nature, it should not be used with copper or its alloys. This product is specifically formulated for severe machining operations, such as broaching, gear hobbing, gun drilling, milling, and threading of steels

CATEGORY

- Metalworking Fluids

BENEFITS

- Good cooling properties
- High performance
- Improved tool life and excellent surface finish
- Improved productivity

PROPERTY

METHOD

VALUE

Colour		Transparent brown
Viscosity @ 40 °C, mm ² /s		17-20
Flash point C.O.C, °C		180
Aniline point, °C		85
Additives		Polars and sulphur-chlorine
