## MACHINING NEAT CUTTING OIL FREE FROM CHLORINE AND HEAVY METALS

Our specially formulated product is crafted from carefully selected paraffinic base oils and fortified with stable additives to enhance performance. It is a non-active cutting oil that operates optimally across a wide range of pressures and temperatures, even under the most challenging machining conditions. Rest assured that it does not contain any heavy metals or chlorine. This product is specifically engineered for machining applications that demand a high-quality surface finish. It is versatile and compatible with both ferrous and non-ferrous metals, including all grades of steel, brass, copper, bronze, and aluminum. You can confidently use it for turning, tapping, milling, and screw cutting operations.

## CATEGORY

- Metalworking Fluids

## BENEFITS

- Good flushing, cooling and lubricating properties
- Transparent and non-active oil
- Improved tool life and surface finish
- Improved productivity
- Environmentally friendly

PROPERTY	METHOD	VALUE
Colour		Clear amber-yellow
Viscosity @ 40 °C, mm <sup>2</sup> /s		18-22
Flash point C.O.C, °C		185
Pour point, °C		-10
Copper corrosion		None
Iron corrosion		None
