LUBRICANTS

## ENVIRONMENTALLY FRIENDLY MACHINING NEAT CUTTING OIL

Our product is a type of active cutting fluid that is formulated with mineral oil and carefully selected stable additives. The balance of these additives is optimized to deliver exceptional performance across a wide range of pressures and temperatures, even when working with challenging metals and under difficult conditions. In addition, it provides the essential lubricating properties needed to reduce the loads on the cutting edge when machining tough materials. Our product is specifically designed for a variety of machining applications, including turning, threading, tapping, gear cutting, and milling, where the highest-quality surface finish is essential. It is compatible with steels that have the most challenging machinability, including all types of stainless and heat-resistant steels

## CATEGORY

- Metalworking Fluids

## BENEFITS

- Good flushing, cooling and lubricating properties
- Improved tool life and surface finish
- Improved productivity
- Contains mist suppressant additive
- Environmentally friendly

PROPERTY	METHOD	VALUE
Colour		Clear amber
Viscosity @ 40 °C, mm <sup>2</sup> /s		28-36
Flash point C.O.C, °C		190
Pour point, °C		-10
Type		Active
