HEAVY DUTY MACHINING NEAT CUTTING OIL

Our product is a neat cutting fluid, formulated with polar compounds, anti-wear agents, and extreme pressure additives. It is a mineral oil-based fluid that delivers superior performance over a wide range of pressures and temperatures, particularly when machining challenging metals and operating in difficult conditions. Our product is specifically designed for machining applications that require a high-quality surface finish, such as forming, stamping, milling, and drawing. It is versatile enough to be used on all grades of steel, including high-alloy steel, yellow metals, and stainless steel, as well as other ferrous metals commonly used in machining and forming processes.

CATEGORY

- Metalworking Fluids

BENEFITS

- Good flushing, cooling and lubricating properties
- Improved tool life and surface finish
- Low foaming
- Improved productivity
- Environmentally friendly
- Chlorine and heavy metals free

PROPERTY	METHOD	VALUE
Colour		Yellowish
Gravity @ 20 °C, g/ml		0.890
Viscosity @ 40 °C, mm ² /s		22
Copper corrosion 1h @ 100 °C		1b
Flash point C.O.C., °C		>210
Pour point, °C		<-25
