NEAT CUTTING SYNTHETIC OIL

This synthetic oil product boasts high chemical stability and remarkable oxidation resistance, making it an ideal choice for metal machining operations that require optimal performance. Additionally, it is highly recommended for use in Minimum Quantity Lubrication systems for effective spraying. The product is free from chlorine-based compounds and is easily biodegradable due to its natural properties. Moreover, it leaves a thin film and is not fully evaporable. This product is versatile and can be used with various materials, including steel, aluminum, copper, and brass. It is particularly well-suited for a wide range of machining operations, such as turning, drawing, drilling, milling, and tapping.

CATEGORY

- Metalworking Fluids

BENEFITS

- Good flushing, cooling and lubricating properties
- High productivity
- Improved tool life and surface finish
- Anti-wear performance
- Biodegradable
- Low volatility

PROPERTY	METHOD	VALUE
Colour		Clear Amber
Viscosity @ 40 °C, mm ² /s		40-46
FOUT		150
Density @ 20 °C, kg/dm ³		0.92
Flash point C.O.C., °C		200
Pour point, °C		-10
