EVAPORABLE STAMPING AND FORMING OIL

This low viscosity evaporating oil is designed specifically for stamping and forming applications, with polar compounds that ensure optimal performance. After use, it evaporates completely, leaving only minimal residue, and eliminating the need for degreasing the parts. This product is appropriate for drawing, stamping, and cutting of electrical and automotive components. It can be applied directly with a brush, cloth, or other similar methods.

CATEGORY

- Metalworking Fluids

BENEFITS

- Easy to apply
- Less defects in parts
- Less wear and tool failure
- Minimum wear in tools
- High film strength
- Better piece finishing
- Low odour
- Friendly for workers (low odour resulting in no headaches)
