NEAT/PURE METALWORKING FLUIDS

325404301

## STAMPING AND FORMING FLUID

This product is an evaporating fluid that has a low viscosity and is specifically formulated for use in stamping and forming applications. The major benefit is that parts do not require degreasing due to the small amount of residue it leaves. It does not contain any chlorine compounds. This lubricant is appropriate for use in the drawing, stamping, and cutting of electrical and automotive components. It can be applied undiluted using a brush or a similar tool for application.

## CATEGORY

- Metalworking Fluids

## BENEFITS

- Avoids contact between piece and die
- Easy to apply
- Less defect in pieces
- Minimum wear in tools
- High film strength
- Better piece finishing

PROPERTY	METHOD	VALUE
Colour		Colourless liquid
Density @ 20 °C, kg/dm <sup>3</sup>		0.73
Viscosity @ 40 °C, mm <sup>2</sup> /s		1.3
Flash point, °C		50
Pour point, °C		-20
