NEAT/PURE METALWORKING FLUIDS

325404401

STAMPING AND FORMING FLUID

Formulated for stamping and forming applications, this low viscosity evaporating oil is advantageous as it leaves very little residue on parts, eliminating the need for degreasing. The product evaporates quickly, making it suitable for use in time-sensitive operations. This lubricant is suitable for use during the drawing, stamping, and cutting of electrical and automotive components made of steel, stainless steel, and yellow metals. It can be easily applied using a brush or similar tool.

CATEGORY

- Metalworking Fluids

BENEFITS

- Avoids contact between piece and die
- Easy to apply
- Less defect in pieces
- Minimum wear in tools
- High film strength
- Better piece finishing

PROPERTY	METHOD	VALUE
Colour		Yellow liquid
Density @ 20 °C, kg/dm ³		0.75
Viscosity @ 40 °C, mm ² /s		1.2-1.4
Flash point, °C		50
Pour point, °C		-20
Chlorine content		nil
