NEAT/PURE METALWORKING FLUIDS

325404601

## STAMPING AND FORMING FLUID

This low viscosity evaporating oil is specifically designed for stamping and forming applications, with the inclusion of EP additives that enhance performance and finishing. This product is suitable for metal parts and automotive components that undergo drawing, stamping, and cutting processes. The main materials used in these processes are steel, stainless steel, and yellow metals. The product can be easily applied using a brush, cloth, or similar tool.

## CATEGORY

- Metalworking Fluids

## BENEFITS

- Avoids contact between piece and die
- Easy to apply
- Less defect in pieces
- Minimum wear in tools
- High film strength
- Better piece finishing
