## DRAWING, CUTTING AND PUNCHING OIL

This oil is specially formulated for cutting and drawing applications and possesses EP properties. Its unique blend of EP additives, lubricity, and polar compounds makes it highly effective in achieving maximum efficiency. Thanks to its exceptional lubricating properties, the product prolongs the lifespan of dies and punches, while also preventing surface fractures and scratches. This product is suitable for deep and medium drawing of steel and stainless steel, including operations such as punching, fine blanking, and stretching. It is also effective in the drawing of automotive parts and household equipment.
