NEAT/PURE METALWORKING FLUIDS

325405901

## COLD FORMING OIL

This oil is specifically designed to provide lubrication for cold forming applications. It is formulated with both polar and extreme pressure (EP) components to achieve a product with the appropriate balance of properties. This product is suitable for use in the severe drawing of all types of steel, as well as for forming stainless steel. It can be easily removed using solvents or alkaline degreasers, and can be applied directly with a brush or similar application device.

## CATEGORY

- Metalworking Fluids

## BENEFITS

- Avoids contact between piece and die
- Easy to apply
- Less defect in pieces
- Minimum wear in tools
- High film strength
- Better piece finishing

PROPERTY	METHOD	VALUE
Appearance		Brown liquid
Density @ 20 °C, kg/dm <sup>3</sup>		1.08
Viscosity @ 40 °C, mm <sup>2</sup> /s		270
Flash point, °C		170
Copper corrosion		1b
