## COLD FORMING OIL

This is a chlorine-free cold forming oil containing EP and polar additives, which is specifically designed for medium to heavy-duty steel forming operations. This product is applicable for medium and deep drawing, stretching, extrusion, and stamping of ferrous metals. It can be applied directly with a brush, cloth, or similar tool, and can be easily removed with solvents or alkaline degreasers.

## CATEGORY

- Metalworking Fluids

## BENEFITS

- Prevents piece and die contact
- Easy to apply
- Better part finishing
- Less defective parts
- Low wear of die and materials

PROPERTY	METHOD	VALUE
Appearance		Oily liquid
Colour		Dark
Density @ 20 °C, kg/dm <sup>3</sup>		0.98
Viscosity @ 40 °C, mm <sup>2</sup> /s		70-90
Flash point, °C		180
Pour point, °C		-10
