NEAT/PURE METALWORKING FLUIDS

325408301

MACHINING AND NEAT CUTTING OIL

This product is a cutting fluid that contains carefully selected stable additives to achieve optimal performance over a broad range of pressure and temperature conditions encountered during machining of difficult metals under challenging conditions. It boasts high chemical stability, exceptional lubricating properties owing to its polar additives, and minimal tendency to form oil mist. It is highly recommended for machining all types of metals and is particularly effective under heavy operation conditions. This product is specifically formulated for use in machining applications, including turning, boring, threading, tapping, and milling. It is compatible with all grades of steel and non-ferrous metals such as brass, copper, bronze, and aluminum.

CATEGORY

- Metalworking Fluids

BENEFITS

- Good flushing, cooling and lubricating properties
- Low mist and vapour formation
- Improved tool life and surface finish
- Higher productivity
- Improved health & safety properties
- Chlorine free

PROPERTY	METHOD	VALUE
Colour		Yellowish
Viscosity @ 40 °C, mm ² /s		29
Flash point C.O.C, °C		190
Pour point, °C		-10
Copper corrosion		No
Chlorine content		Nil
