MACHINING NEAT CUTTING OIL

The product is a non-active cutting oil formulated from selected paraffinic base oils and fortified with EP additives. It is free from chlorine compounds. This product is designed for machining applications that require a high-quality surface finish. It is suitable for use in turning, milling, tapping, and threading operations and can be used with various materials, including steel, cast iron, brass, bronze, copper, and aluminum. Additionally, it can be utilized as a hydraulic fluid and as a lubricant for medium load bearings and gears.

CATEGORY

- Metalworking Fluids

BENEFITS

- Good flushing, cooling and lubricating properties
- High performance
- Transparent and non-active oil
- Improved tool life and surface finish
- Improved productivity

PROPERTY	METHOD	VALUE
Colour		Clear yellow
Viscosity @ 40 °C, mm ² /s		26-32
Copper corrosion		None
Iron corrosion		None
Flash point, °C		185
Pour point, °C		-10
