## MACHINING NEAT CUTTING OIL

This product is a cutting fluid formulated with selected paraffinic base oils that are fortified with EP additives and polar components. It is free from chlorine and heavy metals. This product is specifically designed for machining applications that require a high-quality surface finish. It is suitable for use with a wide range of materials, including steel, cast iron, brass, bronze, and aluminum, and can be used for turning, milling, tapping, and threading operations.

## CATEGORY

- Metalworking Fluids

## BENEFITS

- Good flushing, cooling and lubricating properties
- Improved tool life and surface finish
- Improved productivity

| PROPERTY                              | METHOD | VALUE        |
|---------------------------------------|--------|--------------|
| Colour                                |        | Clear yellow |
| Viscosity @ 40 °C, mm <sup>2</sup> /s |        | 18-22        |
| Flash point, °C                       |        | 175          |
| Pour point, °C                        |        | -10          |
| Copper Corrosion                      |        | None         |
