NEAT/PURE METALWORKING FLUIDS

325409301

GRINDING AND SHARPENING NEAT CUTTING OIL

This synthetic oil is designed specifically for grinding and sharpening processes, with a low viscosity formula. It is insoluble in water, generates minimal mist, and offers excellent chemical stability. The product is compatible with both diamond and cubic boron nitride (CBN) grinding wheels. It is designed for finishing applications where the highest quality surface is required. It is suitable for severe and precision operations of sharpening and grinding of tools and circular saws. Suitable for all type of materials incl. steel, cast iron, brass, bronze, copper and aluminium.

CATEGORY

- Metalworking Fluids

BENEFITS

- Good flushing, cooling and lubricating properties
- Improved tool life and surface finish
- High performance
- Improved productivity
- Less consumption

PROPERTY	METHOD	VALUE
Colour		Colourless
Density @ 20 °C, kg/dm ³		0.80
Viscosity @ 40 °C, mm ² /s		5.5
Flash point, °C		155
Pour point, °C		-30
