BIODEGRADABLE SLIDE WAY OIL

This product range consists of slide way oils made from vegetable-based stock that are environmentally safe and acceptable. They are specifically formulated for extreme pressure (EP) applications commonly found in gear, chain, and machine tool applications. These oils are designed to reduce friction between metal surfaces, thus preventing stick slip on slide ways. These slide way oil-based products are suitable for use in metal processing machines and any other applications where a slide way oil is required. They are specially formulated for machines with central lubrication systems.

CATEGORY

- Industry Specific

BENEFITS

- Excellent lubricity
- Excellent film strength
- Extending service life of tools

PROPERTY	METHOD	VALUE
Odour		Typical
Colour	Visual	Yellow/brown
Viscosity @ 40 °C, mm ² /s	ISO 3104	158
Viscosity @ 20 °C, mm ² /s	ISO 3104	304
Pour point, °C		<-30
Flash point C.O.C, °C	SS 150202	>250
Oral toxicity, LD50 mg/kg	OECD 401	>2000
Biodegradability	OECD 301 B	Readily biodegradable
