

MOULD-PLUS ECO GEN 42

MOULD RELEASE FLUIDS

327300301

BIODEGRADABLE CONCRETE RELEASE AGENT

This biodegradable concrete release product is formulated with vegetable components and special additives to ensure effortless and complete release of concrete forms and moulds. Its design creates a thin film between the mould and the concrete part, providing a safe and smooth release that does not harm operators and extends the lifespan of moulds. This product is also suitable for refractory concrete applications.

This product should be used as supplied without dilution. It can be applied using a brush, roller, rag, or spray gun. It is important to avoid exposing the product to low temperatures as it may impact its stability and other properties.

CATEGORY

- Industry Specific

BENEFITS

- Operator friendly
- Biodegradable
- Longer mould life
- Good finishing and fast release
- High efficiency
- Minimal bug holes formation
- Ready to use

PROPERTY	METHOD	VALUE
Appearance		Light yellow
Density @ 20 °C, kg/dm ³		0.875
Flash point C.O.C, °C		110
Viscosity @ 40 °C, mm ² /s		10-14
Mould corrosion		No corrosion
Coverage rate, m ² /l		40-50
